SEAFLO®

BILGE PUMP AND LIVWELL BAITWELL PUMPS MANUALS

Purpose of this manual:

The purpose of this manual is to provide necessary information for product installation, operation and maintenance.

! CAUTION: Read this manual carefully before installing, using or servicing this product. Failure to follow the instructions within this manual could result in explosion, property damage, severe personal injury and/or death.

User safety:

General safety rules. These are safety rules that apply:

- Always keep work area clean
- Pay attention to the risks presented by gas and vapors in the work area
- Avoid all electrical dangers. Pay attention to the risks of electric shock or arc flash hazards
- Always bear in mind the risk of drowning, electrical accidents and burn injuries

! DANGER: This product is not intended for damage control or to deal with flooding resulting from hull damage. This product is intended to be used in Bilge Pumping Systems for small craft with a hull length up to 24 meters. Bilge Pumping Systems are limited to normal amounts of water in an intact boat due to spray, rain, seepage, spillage, and occasional small amounts of water shipped from boat movements in heavy weather. Use of product in any other way could result in flooding, catastrophic damage to craft, serious personal injury, or death.

! WARNING: This pump is designed for use with fresh water and salt water **ONLY**. Use with any other hazardous, caustic, or corrosive material could result in damage to the pump and the surrounding environment, possible exposure to hazardous substances and injury.

Explanation:

1.The fittings are designed as a split quick connect joint, which adopts the split design of lock nut. This solution can quickly disassemble and replace the fitting without dismantling the water pipe which can meet the needs of most users. The lock nut is universal.1-1/8"29mm 90° fitting sold separately with 360° rotation function to meet any angle requirement.

2.Pump Body 360° rotation function only available for 13C/13D/13E.

Rotation Function

13C/13D/13E Pump Body
Rotation Function

Split quick-connect joint
design no need to disconnect
base or plumbing when
replacing pump.

Suitable for 600-800-1100-1500-2000GPH Only

Accessories:

Standard Straight Fitting
1" (25mm) or
1-1/8" (29mm)

13A/B/C/D/E 600-800-1100GPH

Optional Angle Fitting
1-1/8" (29mm)

Straight Fitting
1-1/8" (29mm)

13A/B 1500-2000GPH

Elbow Fitting
1-1/8" (29mm)

Straight Fitting
1-1/2" (40mm)

13A 3000-3700-4700GPH

Straight Fitting
2" (52mm)

Typical Installation:

13A

Running for 0.5 sec
ON
OFF
Check for water every 2.5 min

13B 600-800-1100GPH

Running for 0.5 sec
ON
OFF
Check for water every 2.5 min

4.5cm 1.77" 0.5 SEC ON
1-3cm 0.39-1.18" 2.5 MIN OFF

13B 1500-2000GPH

13C

13E

13D

Operating modes:

13A 600-800-1100GPH

Pump starts when water reaches 3.8cm/1.5" level, and stops when water level down to 2cm/0.75" for 15 seconds.

13B 600-800-1100GPH

Pump automatically turns on every 2.5 minutes. When the current is below 1.25A or above 8A, pump will stop running. And it will try to start again after 2.5 minutes stopping. When the pump detects that the current at the water level exceeds 1.25A, it will work normally to pump water away.

13A 1500-2000GPH

Pumps starts when water reaches 4.5cm/1.77" level, and stops when water level down to 1~3cm/0.39~1.18"

13B 1500-2000GPH

Pumps starts when water reaches 4.5cm/1.77" level, and stops when water level down to 1~3cm/0.39~1.18".

13A 3000-3700-4700GPH

Pump starts when water reaches 4cm/1.57" level, and stops when water level down to 2cm/0.75" for 15 seconds.

STANDARD PUMP CONFIGURATIONS

Flow rate	Volts	Current	Fuse	Wire Lead	Outlet Dia.	N.W./G.W.
600GPH	12V	2.5A	4.0A	3' (1 m)	3/4" (19mm) 1 1/8" (29mm)	0.40KG/0.47KG
600GPH	24V	1.5A	3.0A	3' (1 m)		0.40KG/0.47KG
